

Single 8-way L-band Splitter

This single **L-band active splitter** gives excellent return loss and flatness. This unit does not provide LNB bias.

It is fitted with dual redundant power supplies, which are monitored by LED's on the front panel and via a dry contact alarm port on the rear.

The power divider is available in a variety of impedances and connector types (model numbers will vary) and with the option of single or dual power supplies. This particular unit has 50 ohm N-type RF-IN and 50 ohm BNC RF-OUT connectors.
