

4 x 4 SNG Truck Receive L-band Matrix

With LNB Powering & Local Control Only

This SNG truck matrix, employs the latest ETL switching and routing technology and has been designed to provide economical high performance L-band routing for SNG trucks and other mobile installations.

Front View of Model M0404D1UFL-21119-N5

The compact and lightweight design also favours this use. The human interface is simpler than standard ETL matrices, but still fully effective and helps to optimise costs. There is only local control of the routing.

Rear View of Model M0404D1UFL-21119-N5

The matrix can handle 4 inputs and 4 outputs and is fully distributive (any input can be routed to any or all outputs). The 19" 1U high shelf has a single mains power supply. LNB power (13V DC) is always available at the RF input ports.

There is a dry contact alarm port in the event of power supply failure.

This unit has 50 ohm N-type connectors, but other impedances and connector types are available (model numbers will vary).

Model Number: M0404D1UFL-21119-N5

4 x 4 SNG Truck Receive L-band Matrix with LNB Powering & Local Control only

Technical specifications and operating parameters

RF Parameters	
Capacity	4 inputs x 4 outputs
Frequency Range	850-2150 MHz (L-band)
Gain	+ 0 dB nominal \pm 1 dB
Flatness	\pm 1.5 dB
1dB Compression	- 10 dBm
Isolation (Adjacent Channel)	> 40 dB
Noise Figure	7.5 dB
Input Return Loss	> 10 dB typical
Output Return Loss	> 10 dB typical

System Control	
Local Control	Four rotary switches on front panel

Environmental	
Operating temperature	0 to 45°C
Location	Indoor use only
Storage temperature	-20°C to +75°C
Humidity	85% non-condensing

Physical	
Connectors	N-type
Impedance	50 Ω
Dimensions	1U high x 350mm deep x 19" wide
Colour	White 00-E-55 semi-gloss

Power	
AC Power	90-264V AC (50/60Hz) Fused 2A
LNB Power	13V un-switched, permanent. Available on all inputs
PSU	Single 15W
Hot-swap PSU	No

Key Features	
Affordable lightweight high performance L-band switch matrix, ideal for sat trucks.	
LNB Powering	

ETL Systems Ltd, Coldwell Radio Station, Madley, Hereford, HR2 9NE, England

ETL Systems design, develop and manufacture specialist equipment for satellite ground stations. For a full description of the ETL product range, please see our website at www.etlsystems.com. This product range provides the basis for meeting your specific demands.
